I-NA218U-BLK/WHT/BLU SATA to USB3.0 External Hard Drive Adapter

Getting Started

Thank you for purchase ineo | I-NA218U Plus. ineo | I-NA218U Plus SATA to USB3.0 External Hard Drive Adapter. This quick install guide provides step-by-step installation instructions and other important information regarding your ineo product. For the latest ineo product information and news, please visit our Web Site at http://www.ineotechusa.com

Package Contents

User Manual

System Requirements

Hardware

Pentium® II, 200 MHz equivalent or newer for IBM compatible PC

PowerPC G4, 350 MHz or newer for PowerPC-based Apple Computer Core® or newer for Intel-based Apple Computer

Software

Windows 2000/Mac9.1/Linux for USB2.0 Windows XP/Vista/7 for USB 3.0

Note: For highest performance and reliability, ineo recommends that you install the latest service pack (SP) and updates.

Updating Your Operating System

Windows

Go to the Start menu and select Windows updates. For more information regarding updating your system, visit http://windowsupdate.microsoft.com.

Macintosh

Go to the Apple menu and select Software Update. For more information regarding updating your system, visit http://www.apple.com/macosx.

Handling Precautions

ineo products are precision instruments and must be handled with care during unpacking and installation. Drives may be damaged by rough handling, shock, or vibration. Be aware of the following precautions when unpacking your ineo external storage kit:

Do not unpack the product until you are ready to install it.

Do not drop or jolt the product.

Do not move the external storage when it is powered up.

Setting Up

You will need a 2.5 inch SATA Hard Drive. Carefully follow the procedure to install the Hard Drive into the enclosure.

▶ ineo | I-NA218U Plus View

Hard Disk Drive Installation

1. Slide the 2.5" HDD/SSD into the ineo cover.

3. Adjust the cover to fit in place.

Connecting the External Hard Disk Drive

Connecting the Cables

Connect the end of the USB 3.0 cable to an available USB port on your computer.

The power is automatically startup after USB Cable is connected. Please wait 3 seconds after blue light illuminates.

Note: ineo does not provide any tech supports for Windows98 platform since Microsoft has discontinued Windows 98SE.

Your operating system will automatically detect the external drive under USB2.0 mode. Once formatted the Hard Disk

Partition & Format the Hard Disk Drive

Startup Computer Management

down menu.

3. Click Disk Management under Storage. The new Hard Disk Drive should have the correct capacity shown. (E.g. figure above Disk 1 is showing approximately 160GB). Right click the Disk 1, and choose Initialize Disk.

2. Connect the SATA Adapter to HDD/SSD.

4. The adapter can be placed into the case to go.
